How to install the license key?

1. If not already done, rename the license file to **license.xml**
2. Copy it to: "C:\Users\Public\Documents\X+\license.xml"

Note: On **Windows 11** the folder for public documents has been renamed to: "C:\Users**Public\Public** Documents\"

How to change the logo in HTML reports?

1. Replace *%public%\documents\X+\logo.png* with your own logo.png.

How to change the location of the reports folder?

The default reports folder is located at *%public%\documents\X+\reports*.
With a symbolic link we can change the location.

1. Rename the default folder. I.e.: *%public%\documents\X+\reports_old*
2. Create a new folder. I.e.: *z:\my reports*
3. Run Windows command prompt as administrator.
4. Use *mklink* to create your symbolic link.
   c:\windows\system32>mklink /D "C:\Users\Public\Documents\X+\reports" "z:\my reports"

```
C:\WINDOWS\system32>mklink /D "C:\Users\Public\Documents\X+\reports" "z:\my reports"
